

ABOUT CARE CENTRE OTTAWA

We strive to create a caring and supportive space where individuals and families living on low income can access nutritious food, learn new skills and make use of available resources that will help them build a better future for themselves and their families.

Care Centre Ottawa is bursting at the seams as we endeavour to keep pace with the increased demand for our services - a growth in demand which is anticipated to continue for some time to come. In response, we desperately need to renovate. Your financial support will enable us to welcome more people, store more food and provide critical programs for our guests.
